

## CQE EXAM COACHING

### OBJECTIVES

The purpose of this self-paced coaching session is to help candidates prepare themselves for the Certified Quality Engineer examination offered by the American Society for Quality. The examination is intended to test a candidate's knowledge of all of the areas of information used by the modern Quality Engineer in his/her profession. The cost is \$285.

**Presented by: Joe DeSimone, CSSBB, CQM, CQE, and CRE, PMP, MBB**

Joe DeSimone has been conducting this course and others successfully passing over 5,000 ASQ examinees world-wide since 1989. Every year, Joe offers this course in his home and invites Quality professionals from California, Arizona, Nebraska, Arkansas and Mexico. Additionally, Joe conducts this course in China, India,... Don't miss the opportunity to prepare for *and pass* the next CQE exam in a remote fashion with no classroom attendance.

This session is done remotely and is designed to allow examinees to prepare for the CQE exam entirely at their own pace and timing and interface with the instructor via email and phone. The session will include the following:

- 1) Study Plan
- 2) Updated exam – type simulation questions
- 3) Guidelines for exam taking
- 4) Case Study practice questions
- 5) Updated study notes to take into the exam

### Topics to be Covered:

- I. Introduction to the CQE, Test Basics, CQE Study Plan
- II. Management and Leadership in Quality Engineering
- III. Quality Systems Development, Implementation, Verification  
Calculator Practice Problems (Every session)
- IV. Product and Process Design  
Reliability and Maintainability
- V. Product and Process Control / Acceptance Sampling
- VI. Testing and Measurement
- VII. Quality and Management Tools / Quality Control Tools
- VIII. Improvement Techniques
- IX. Basic Statistics
