

## CQM/E EXAM COACHING

### OBJECTIVES

The purpose of this self-paced coaching session is to help candidates prepare themselves for the Certified Quality Manager of Excellence examination offered by the American Society for Quality. The examination is intended to test a candidate's knowledge of all of the areas of information used by the modern day Quality Manager in his/her profession. The cost is \$285.

**Presented by: Joe DeSimone, CSSBB, CQM, CQE, and CRE, PMP, MBB**

Joe DeSimone has been conducting this course and others successfully passing over 5,000 ASQ examinees world-wide since 1989. Every year, Joe offers this course in his home and invites Quality professionals from California, Arizona, Nebraska, Arkansas and Mexico. Additionally, Joe conducts this course in China, India,... Don't miss the opportunity to prepare for *and pass* the next CQM/E exam in a remote fashion with no classroom attendance.

This session is done remotely and is designed to allow examinees to prepare for the CMQ/E exam entirely at their own pace and timing and interface with the instructor via email and phone. The session will include the following:

- 1) Study Plan
- 2) Updated exam – type simulation questions
- 3) Guidelines for exam writing
- 4) 3 Practice Essays – critiqued by the instructor
- 5) Updated study notes to take into the exam

The latest revision of the CQM Examination is a 4 hour, two part exam to be taken in one day. The exam will consist of 150 questions (including case studies). The first part of the exam requires the writing of 2 essays ( 45 minutes allowed ).  
The Body of Knowledge consists of seven areas:

- I. Leadership
- II. Strategy Development and Deployment
- III. Management Elements and Methods
- IV. Quality Management Tools
- V. Customer Focused Organizations
- VI. Supply Chain Management
- VII. Training and Development

This session cannot teach a candidate the entire Body of Knowledge required to be a Quality Manager in one session. It will, however, do three things for the candidate:

1. Provide an overview of the entire field of Quality Assurance / Management and thereby refresh the candidate's knowledge of the field.
2. To identify new areas in which the candidate may wish to increase his / her knowledge.
3. To provide direction for self-study and practical insights to coping with the exam.

To sign up for the exam: Visit [www.asq.org](http://www.asq.org)

**CERTIFICATES**

A certificate will be awarded to each candidate successfully completing this session.

**TEXT REQUIRED FOR THE SESSION**
